

EXECUTIVE SUMMARY

Christian Haposan Pangaribuan

It gives me great pleasure to present to the readers the very first volume and first issue of *Journal of Business, Management, and Social Studies*. In this issue, we publish results of international interdisciplinary scientific studies in various aspects of business and management as well as social studies.

I would like to thank the editorial board who served as anonymous reviewers of submitted manuscripts. Reviewing an article has always been considered to be a voluntary effort and it represents a commitment of time and energy. The anonymous peer review utilized in a professional journal can be a rewarding experience and serves as a benefit to the scientific community.

Several articles in this issue present the results of studies conducted in terms of various projects, five articles of thirteen researchers are presented. The authors of the articles are from The University of Queensland, Sampoerna University, and STIKS Tarakanita. Based on the research topics, their scientific articles are divided into five sections: "Corporate Governance on Non-performing Loans," "Corporate Governance Mechanism on Financial Performance," "Cash Management Practices of Small and Medium Enterprises," "Public Health Services during COVID-19 Pandemic," and "Product Placement in a Movie." All articles are original research works oriented towards the possibility of implementation in many circumstances.

In closing, as the appointed Editor-in-Chief of this journal, I have the pleasure of inviting authors from the areas covered by the title, and I would like to ensure a high editorial level in the published papers.
